

PRESS RELEASE

The LOGPAY Group is expanding the offer of truck road services through the cooperation with TRAVIS Road Services

Eschborn, 24/01/2023 – the booking of secure truck parking spots, a road service of LOGPAY, a 100 percent subsidiary of Volkswagen, will in the future be processed in co-operation with the partner TRAVIS Road Services.

For LOGPAY, the joint cooperation with TRAVIS means a further expansion of services like truck washing, tank cleaning, truck repair and secure parking in the truck fleet business, for Europe-wide coverage and the safety of drivers along their routes. For the future we will work together as partners with one system and our customers get instant access to more than 2000 truck services at over 1400 locations across Europe.

For all offered Road Services, the LOGPAY Card can still be used as a payment method directly on spots and all transactions will get collected on one single LOGPAY invoice. The booking of secure parking will be possible at the new online booking platform with the LOGPAY Card: [LOGPAY Road Services](#).

Finding POIs, free parking spots and to interact with the trucker community, drivers can still use the Truck Parking Europe App.

“Companies and, above all, drivers will benefit from the cooperation. By integrating our services with other smart solutions, we are pursuing our mission of seamless mobility for everyone.” Jens Thorwarth, Managing Director at LOGPAY

„We are pleased that we have been able to work with LOGPAY on integrating the bookable activities of their booking platform Truck Parking Europe in the TRAVIS platform. By joining forces, we provide an even larger network of road services throughout Europe. This allows transport companies to book all their road services conveniently on one platform.“ – Jochem de Graaf, CEO at TRAVIS Road Services.

ABOUT TRAVIS

TRAVIS Road Services is a fast-growing booking platform for truck-related road services in Europe. TRAVIS customers can effortlessly find, book, and pay for services such as truck wash, tank cleaning, truck parking, and truck repair. Currently, more than 1,450 service partners across 17 European countries offer their services via the TRAVIS platform. Apart from a booking platform, TRAVIS offers carriers a wealth of different tools to plan their road service use. Ultimately, TRAVIS aims to contribute to a more cost-effective, efficient, and safe logistics industry.
