LOGPAY cooperates with Südramol GmbH & Co. KG and expands its acceptance network

Eschborn, 08/02/2024 - The LOGPAY Cards can now be used as a means of payment at 34 Südramol RAN brand petrol stations. Mobile Fueling users can also look forward to the new addition to the system.

Through the cooperation with the southern German family business, 34 new RAN stations will be added to the comprehensive LOGPAY network with over 10,000 acceptance points in Germany.

All 34 of the new RAN stations have also been activated for the Mobile Fueling digital payment service. Customers can now conveniently pay directly from the fuel pump via app. LOGPAY is further expanding its Pay@Pump network coverage.

A LOGPAY Charge&Fuel Card is required to use Mobile Fueling. In combination with the LOGPAY CoBranded Card Shell, which can also be activated for Mobile Fueling in the app, over 3,000 stations throughout Germany, including Shell, HEM, Hoyer and now the new RAN acceptance points, are available. This saves customers a trip to the store and allows them to continue their journey quickly. In addition, fuel receipts are delivered digitally, paper-free and environmentally friendly.

RAN's stations are located in towns and cities and on federal highways in Bavaria and Baden-Württemberg.

These are characterized in particular by the very high-quality catering on site by petrol station standards. RAN offers its pizzabob and BrotZeit & Kaffee brands, for example.

“Another great partner in LOGPAY's petrol station network means that we can continue to grow in our main market of Germany and build the best acceptance network for our customers. Together with Südramol, we are taking another step in this direction,” says LOGPAY CEO Jens Thorwarth, delighted with the new cooperation with Südramol.
